Investment review to be undertaken after precept setting (post January 2024) so projects in three year plans can be considered.

<p>052.2</p>	<p>creation was not known had driven this suggested policy in order to provide a process for review. Cllr Davies suggested policy should include a minimum initial amount for creation of the reserve. Cllr Payne suggested there would be no top up limits because it could be for a large project. Following acceptance of process, current reserves could be reviewed and money returned to general reserves where needed. Cllr Leonard asked if each reserve was owned by a committee, RFO explained that most specified reserves were but that Section 106 reserves were available across committees to be used for suitable projects. Cllr Payne outlined that the new process will allow projects to be considered to see if it qualifies for a reserve. RFO provided extract from “Borrowing, Precept Increases Policy” which stated use of reserves, Cllr Payne to review both policies and combine them as required to provide suitable policy. Once accepted by the committee, the policy will need to be presented to Full Council.</p> <p>To review current reserves and funds in line with new process Cllr Payne queried reserve 3240 Land Fund: wayleave might be the only legal agreement that would constrain the spending of the money. He also queried the 3010 Community Facilities, 3030 Community Space Reserve Fund, and 3040 Public Open Space Reserve Fund, suggesting funds could be returned to general reserves. Cllr Davies queried whether the Community Facilities reserve could contribute towards the Recreation Development Plan, Cllr Stonham thought that leaving as Community Facilities gave more flexibility for the use of the fund. Cllr Leonard asked if loans would be possible for large projects such as the Rec Development, and Cllr Payne confirmed public loans were available. Cllr Leonard also highlighted the need for recording of asset depreciation and replacement costs to provide information for future reserves. Reserves to be reviewed after precept setting. RFO to provide as much information on creation of reserves as is known.</p>	<p>DP/ Next agenda</p> <p>RFO Next Agenda</p>

RFO outlined that agency workers would allow for better handover to staff while positions are being confirmed and advertised. Modified motion proposed: To agree, in principle, to engage agency workers for three months from January 2024 in order to enable a smooth handover between groundstaff and provide support whilst positions are filled, up to a limit of £10,000. Also receipt of request for additional funding for Highlights magazine.</p> <p>Standing Orders suspended.</p> <p>Member of public asked how youth work is evaluated, how are benefits defined. Cllr Payne said that it was considered against employing a youth worker in house, which had been previously attempted. Cllr Davies noted that even if we moved away from the Connections Bus Project we would still have to buy in a service. Cllr Payne said he had researched youth work with County Councillors, and they said there is no competing service in the county, no-one to replace that function currently. Cllr Davies asked if Romsey Mill had been considered. RFO said regular reports were received from the Connections Bus Project and these were circulated to Council.</p> <p>Standing Orders reinstated.</p>

Cllr Stonham said he would also ensure all the projects are included for each committee, the closing date for the review being 22nd December. First draft noted, no decision made.
