

**MANOR FIELD WOODS**

Item	Tree No	Tree Tag	Diameter at breast Height (dbh)	Species	Tree survey and Tree Officer comments	Action
1	T001	130	31 cm	Elm Sp	Multi Stemmed. This tree has 3 stems, dbh ~ 25 cm, 20 cm and 10 cm. The 25 cm stem has leaves to 5 m but not above that. The 20 cm stem is alive, with minor dead wood at the top. The 10 cm stem is dead and covered in ivy. The tree is upright and not very big, with a low risk of falling on anyone.	Remove dead wood only. Remove arisings
2	T002	131	31 cm	Elm Sp	not dead. Fine up to about 10 m. Top 2 m has no leaves.	Remove dead wood only. Remove arisings
3	T003	132	31 cm	Elm Sp	Multi-stemmed. Vigorous growth on lower part of tree, but no leaves above about 5 metres, except on a branch which stretches over the adjacent garden	Pollard at 4m. Remove arisings
4	T004	133	31 cm	Ash	The tree has developed a long lateral limb which extends over garden area. Given the excess weight when in leaf the limb likely to be prone to failure. Regrowth will screen and shelter woodland.	Remove smaller stem at 2 metres above ground level so that it is not over the garden Leave arisings
5	T006	135	24 cm	Elm Sp	Dutch Elm Disease present. Limited life expectancy.	Fell. Remove arisings
6	T007	136	35 cm	Elm Sp	Dutch Elm Disease present. Limited life expectancy.	Fell. Remove arisings
7	T009	138	24 cm	Sycamore	Dead tree. Dead, has ivy, some signs of sooty bark disease.	Fell. Remove arisings
8	T010	139	40 cm	Ash	Tree has lost a main leader which is currently hung up in a section of another broken limb. This broken/hung up main leader should be removed as it is close to a used informal footpath.	Remove the hung up stem and lay it flat. Leave arisings
9	TD1		25 cm	Elm	Dead. Ivy has been cut. Only 50 cm from T007. By garden fence.	Fell dead tree. Remove arisings

10	TD2		~ 50 cm	Elm	Dead. Lots of ivy. Low fork with rot hole. Leans West over boundary. Right by fence	Fell dead tree. Remove arisings
11	TD3		25 cm	Elm	Has 10 cm dbh side stem from 30 cm above ground. Side stem has leaves. Main stem has leaves only to 1.5 metres. Top dead. Leans slightly West towards garden. Cut main stem at 2 m. Leans towards garden.	Remove dead top. Remove arisings
12	TD4	0231	40 cm	Ash	Low branch with ivy has partially split off and is hung up over the path through the wood. Unstable, may rip more bark off trunk. Cut branch off and lay it flat. Tree is just to East of path, branch is across path.	Lay down hung-up branch.
